BUILDING SAFETY Organization Chart

The Pinal County Building Code Ordinance

- Pursuant to ARS 11-861 the Pinal County Board of Supervisors Adopted the Building and Fire Codes in 1986.
- Pinal County has currently adopted the **2006** International Family of Building Codes which include the Building, Fire, Mechanical, Electrical, Plumbing, Fuel Gas and Energy Conservation Codes.
- The Statute allows the adoption of a building code and the creation of a building department in the unincorporated areas of the County.
- Building Safety is also allowed by Statute to contract with the Cities and Towns to provide building code services in those municipalities through Inter-Governmental Agreements (IGA).

Building Code Services

- **Building Permit Issuance** – Plan Review & Inspections
- **Investigative Services** for Dangerous Buildings - Electrical, Gas, Plumbing Systems & Fire Code Violations
- **Inter-Governmental Agreements** to provide Building Code services to the Towns & Cities. Currently there are four (4) active IGAs under contract: the **Towns of Mammoth, Kearny and the City of Coolidge (On-call)** and the **Ak Chin Indian Community**.

P I N A L • C O U N T Y
wide open opportunity

Building Code Services Continued

- Advisors to the Counties Sustainability/Green Building Programs
- Inspection, Plan Review and Permit Issuance for **County Buildings**
- Service on Boards and Commissions with the **State Fire Marshal and the International Code Council** to allow Pinal County the ability to participate in the development of new Building and Fire Codes.

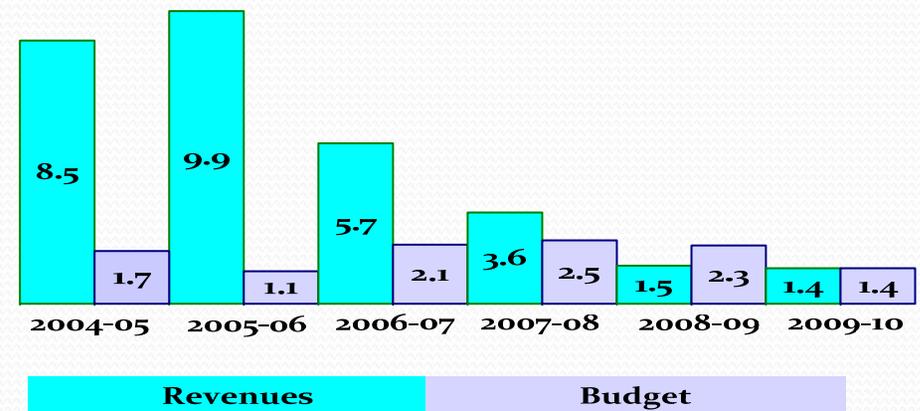

P I N A L • C O U N T Y
wide open opportunity

Building Safety Budget

- Building Safety is a General Fund department. With the exception of 2008, revenues have always exceeded the budget and have contributed significantly to the General Fund.
- The department operates with a performance based budget. Our measures include; **Permit Issuance Turn-around Times, Training and Certification, Investigation Response Times and Permit Issuance Coordination with other Development Services Departments.**

Expressed in Millions of Dollars

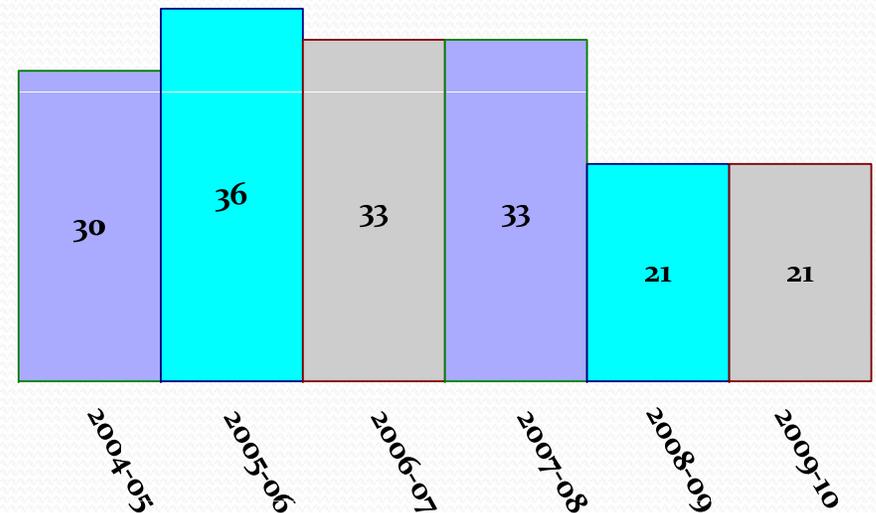

PINAL • COUNTY
wide open opportunity

Building Safety Staffing

- Building Safety has been pro-active through an Attrition Program began downsizing after the building boom in 2005.
- In June of 2006-09 the County implemented a Reduction in Force and approximately 40% of staff reduced.
- Continued administration of building safety compliance program dilapidated buildings, swimming pools, etc. **In the past 1 ½ we have collected over \$26,000.00 in fees from 560 complaints.** This does not include revenues from the Hearing Office and Buildings that are now on the tax roll.
- We continue to provide Building and Fire Code services in a timely, professional manner over most of the 5,386 square miles of Pinal County.

Actual Positions Filled, not allotted or approved

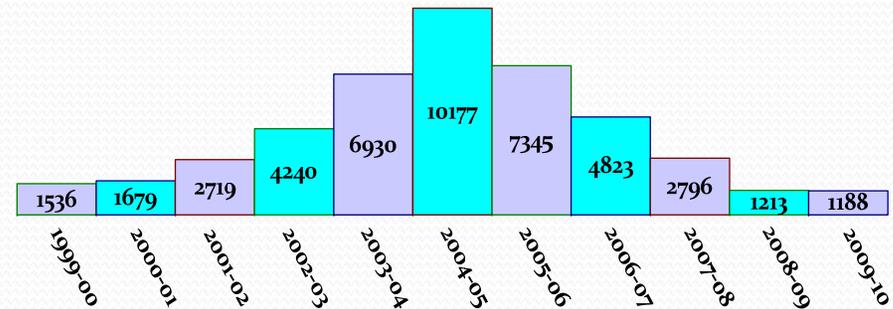

P I N A L • C O U N T Y
wide open opportunity

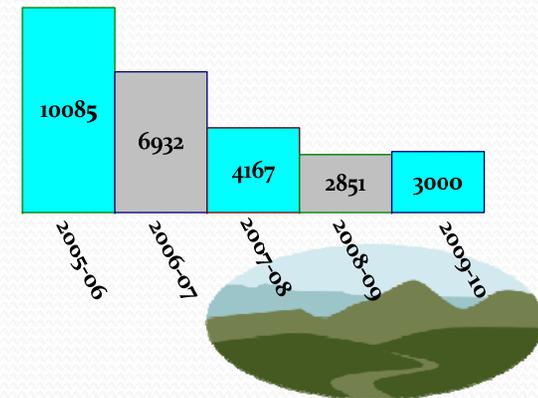

Building Permit Issuance

- Statistics do not always give a complete picture of the building department's business. After the permit is issued there is often several months of inspections to be performed. A large commercial building or complex may require several inspections a day, in some cases for more than a year.
- In addition to new residential houses, our **Total Permits Issued** include **Commercial, Industrial, Pools, Small Additions and Repairs and Mechanical, Electrical & Plumbing Systems**

HURF/VLT

- HURF
 - FY 11 Revenue: \$14 Million
 - Commonly referred to as the “gasoline tax”
 - Constitutional restriction on use-funds used solely for street and highway purposes
- VLT
 - FY 11 Revenue: \$4.2 Million
 - Vehicle registration tax
 - Revenue combined with HURF

P I N A L • C O U N T Y
wide open opportunity

HURF/VLT

- 999 of miles paved
- 1101 of miles gravel
- Pavement Preservation
- Maintenance (Sweeping/Grading/Mowing/Patching)
- Traffic Signals/Signs/Striping
- Public Works has **10** maintenance facilities:
 - Casa Grande, Hidden Valley, Arizona City, Oracle, Riverside, Florence, Coolidge (2), Apache Junction, Adamsville Road (Recycling).

Examples of Increased Standards

Improving visibility at selected intersections and road curves in order to reduce driver confusion during night driving.

This will be a multi-year project as we improve signs with highly reflective materials, add lighted street name signs at signalized intersections, and improve street markings.

Road Tax

- Approved by the voters in 1986 for construction, reconstruction, maintenance and repair
- November 2005 special election, Pinal County voters reauthorized the tax for an additional 20 years
- Revenue is shared between ten incorporated cities and towns and the County based on a population-based formula
- Approximately 37% of the tax is distributed to the unincorporated County. 63% to Cities & Towns. This share only decreases between decennial census.
- Citizen Transportation Advisory Committee recommends projects to Board of Supervisors.

Pinal County

Flood Control - Statutes

- The Pinal County Flood Control District was formed pursuant to the Arizona Revised Statutes (A.R.S.) 48 Special Taxing Districts, Chapter 21, Flood Control Districts.
- Under this statute, A.R.S. 48-3601 through 48-3628 the counties in Arizona must organize a flood control district to include all of the land within its jurisdiction. This district is a political taxing subdivision of the State of Arizona. The District has a Board of Directors, that is the same Board as the County Board of Supervisors. This Board serves without compensation for services.

P I N A L • C O U N T Y
