Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined below).

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

General Instructions
 Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form
 A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

HEAVY DUTY POLYPROPYLENE CASE combines light weight and high impact strength.

PREMIUM ENVELOPE SEPARATORS protects the plates and help prevent shorting and vibration damage.

VIBRA LOCK® CONSTRUCTION Plates are hot melt anchored to the top of the plates to protect against vibration. Straps are thicker, heavier and cast onto plates for added vibration resistance.

MAINTENANCE FREE CONSTRUCTION
You never have to add water. Calcium lead alloy in positive and negative plates reduce gassing and water consumption.

SMF Series Automotive Batteries

(Sealed Maintenance-Free)

- MAINTENANCE-FREE (CALCIUM/CALCIUM NON-ACCESSIBLE)
- LONGER LIFE
- FULL RANGE OF CCA'S
- EASY TO CARRY HANDLE
- CHARGE EYE INDICATOR
- NATIONWIDE WARRANTY

Performance Plus offers you the best in a calcium/calcium non-accessible battery. When reliability, performance and peace of mind counts. Performance Plus batteries are designed to withstand all temperature extremes, from the cold northern to the hot southern climate.

THE LONGER LIFE **DEEP CYCLE BATTERY**

Today's Golf Courses and Commercial Electric Vehicles demand performance. Batteries must not only meet runtime requirements, they have to provide long term dependability and reliability.

The GC2 and GC8 family of products bring it back to basics. No exotic alloys. No fancy trade marks. Only time tested technology backed by proven Engineering and Performance.

CALCIUM/CALCIUM GRID ALLOY

Reduces gassing and extends intervals between watering. Provides excellent corrosion resistance for longer life.

HIGHER DENSITY PASTE

Optimizes energy density and prolongs cycle life by resisting material shedding and plate deterioration.

FIBER REINFORCED SEPARATORS

Helps retain cell compression during cycling and improves plate life in high vibration applications.

OPTIMIZED PLATE DESIGN

Balances structural design with performance. Reduces common failure modes found in Deep Cycle batteries.

POPULAR CONFIGURATIONS

The GC2 and GC8 products are available in several configurations. Making it easy to provide your customer exactly what they need.

CONVENIENT CARRY HANDLE

Simplifies installation and provides an easy, safe method of handling the batteries.

UP TO 25% LONGER CYCLE LIFE

Testing in accordance with the SBA8002 Life Cycle test. The GC2-105 exceeds 625 cycles.

**PERFORMANCE PLUS RECYCLING DIVISION
SCRAP BATTERY COLLECTION AND RECYCLING PROGRAM**

Performance Plus Distributing has developed an alliance with nation-wide recycling smelters in North America. With this program, spent battery pickups can be made directly from customer sites or from consolidated storage within our service area. Only licensed hazardous material carriers are used. No scrap dealers or battery breakers are involved. Partial loads can be handled, although at least half a truckload is preferred.

Performance Plus has selected the following recycling facilities for this program because of their environmental, health and safety compliance performance, and facility management. We feel strongly that these facilities present the lowest future environmental liability risks within the North American Market.

SMELTERS

Facility Locations:

Exide Technologies EPA# CAD097854541

RSR Quemetco EPA# CAD066233966

BATTERY COMPONENT MANAGEMENT

LEAD AND ALLOY METALS:

Processed through a series of pyrometallurgical process to produce refined metals ingots, Sold for beneficial use.

SULFURIC ACID:

Converted to FDA grade anhydrous sodium sulfates, Sold to detergent, paper and glass Industries.

LEAD PASTE OXIDES:

Desulfurized with soda ash, filtered and reclaimed as lead metal through a reverbatory Fumage.

POLYPROPYLENE AND OTHER PLASTICS:

Cleaned and separated, sold for beneficial reuse.

STEEL:

Segregated, washed and sold to steel mill for beneficial reuse.

BATTERY SEPARATORS / EBONITE / NON-RECYCLABLE PLASTICS:

Used as reverbatory fuel, incinerated.

SLAG:

Re-processed through an on-site blast furnace. Reduced quantity of glass-like, low Toxicity material , is sent to a licensed hazardous waste landfill.

BATTERY COLLECTION / RECYCLING PROGRAM

THE PROGRAM

1. We offer special assistance in removal of spent batteries in solar, cell sites, and Stand-by power applications. Please call for rates.
2. This program only can recycle spent batteries that are of lead content. Please Contact us to verify type of spent battery to be recycled.
3. When a quantity of spent batteries is available, the units should be secured to pallets and prepared for shipment as per the generator's requirements defined In the Department of Transportation regulation (CFR Title49). A packing list Describing the number and types of batteries should accompany the shipment.
4. Contact our recycling division at (480) 844-3809 to arrange for transportation.
5. The batteries will be picked up by Performance Plus, or a licensed, commercial Or contract hazardous material carrier. In most cases pick up will occur within Five business days.
6. Shipping documents (Bill of Lading / Packing List) will be reconciled against The contents of the trailer.
7. The batteries will be unloaded and promptly processed under controlled and Protected conditions.

FACILITY AUTHORIZATION

Issued to:

Performance Plus Distributing, Inc.

At the location of:

1104 South Mesa Drive, Mesa, AZ 85210

To be used for the collection and/or recycling of lead acid batteries pursuant to the Arizona Revised Statute §44-1322.

This authorization will be valid until the expiration date as noted below and/or as long as the facility is used for the purposes indicated above, and is maintained and operated in a satisfactory manner. This license is not transferable from person to person or facility to facility.
